

Step 2 (Pieced rectangles, 17 (31) of them)		
All versions	Cut 3 (5) 6-1/2" strips of your background fabric. For the larger size, you will probably need to cut one more 6-1/2" square.	
Three color	Cut 6 (11) 3-1/2" strips of your dark fabric (C). Sew into strip sets with the background fabric in the middle. For the larger sized, cut the last strip in half and sew half to each side of the single background fabric square. Press the seams to the background fabric. Cross cut into 17 (31) 6-1/2 x 12-1/2" rectangles.	
Four color	Instructions are the same as for the three color version, but use the darker of your fabrics (E).	
Scrappy	Cross cut into 17 (31) 6-1/2" squares from your background strips. Cut 34 (62) 3-1/2" by 6-1/2" rectangles of your scraps. Sew one to the opposite sides of the background squares, making units 6-1/2" by 12-1/2" Press toward the center.	

Step 3 (Half Square Triangles, 48 (80) of them)		
All versions	Cut 3 (4) 4" strips of background fabric (A). Cross cut 24 (40) 4" squares.*	
Three color	Cut 3 (4) 4" strips of the dark fabric (C). Cross cut 24 (40) 4" squares. Use your preferred method of making half-square triangle patches. (draw a line and sew on both sides of it, cut in half diagonally and sew with a quarter inch seam, use an Angler or similar tool, etc). Trim these to 3-1/2"	
Four color	Instructions are the same as for the three color version, except you will use the darkest fabric (E).	
Scrappy	Cut 24 (40) 4" squares of your scraps. Make half-square triangle patches using your preferred method. Trim to 3-1/2".	

* This quilt uses a lot of 4" squares of the background fabric, 108 (184) of them. You can cut them all at once, or when you get to each step that uses them.
